Nitric Acid (dilute)	A
Sodium Hydroxide (46.5%)	B
Sodium Nitrate	A
Sulfuric Acid (dilute)	A
Toluene	B

• **A** = little to minor effect • **B** = minor to moderate effect

The resistance levels reflected in this chart are based on moderate exposure, not long-term immersion in any of the above listed fluids. If your application is more rigorous, please request a sample to test against the chemicals in question. For best results, please use this chart as a guide. And schedule regular maintenance (cleaning) for your mats.
